

# Commentary for Session 3: Transportation and Logistics

Koki Nagata  
R.H. Smith School of Business  
University of Maryland

## Topics

1. Air transport in international trade
2. News in Northeast Asia relevant to regional integration effort

## 1. Air transport in international supply chain

Asian air freight market continues to lead the world growth.

Aircraft design still catering for passenger, never been for air freight

next demands “RoRo operation”

“construction equipment”

Today, fuel efficiency is the key requirement

## 2. News in NEA relevant to regional integration

Northeast Asian Ferry

Basic support and incentive for NEA multinational business – policy proposals

Trans-Siberian logistic chain

## Old wisdom

- “Cusk Theory” for Northeast Asia
- What/where is the lowest lath?  
Political will, IT, Human & Financial Resources, Skills, Managing know-how, Business incentives, Laws, or strategy for Ecology???

## 木桶原理
